Thanks for that clarification. I had a question on that as well. Since EPA has asked for 7 days to review. Is there a timeframe by which you are expecting to receive the letter?

Best Regards,

Hello Jeff:

In reply to your question, prior to initiating that correspondence as per section 3c. EPA would also to be able to view the final correspondence upon request if needed, but the main intent is for EPA to be able to look at that correspondence and provide comment before it is distributed.

Hi Meg,

The three registrants have a meeting planned for 11:00 this morning in which we plan to go through the terms and conditions draft document and make any additional changes/comments. I expect that we will be able to send that revised document by this afternoon.

Perhaps you can provide a quick answer for one question that I have. Regarding the required correspondence with sellers and distributors, are the registrants required to submit that correspondence to EPA for review and comment prior to initiating that correspondence as per section 3c, or are we required to make it available to EPA upon request as per 2e?

2e. Registrant must send a report to EPA by XX/XX/2022 + 30 days detailing its efforts to accomplish all of the above. A copy of the training materials must be included with this report. Registrant must maintain copies of any correspondence it sends to all sellers, distributors, and purchasers and make them available to EPA upon request.

3c. Registrant will send, either to a valid and appropriate e-mail address and/or via mail, correspondence to all known sellers and distributors of this product to notify them of these changes. Registrant will send a copy of this correspondence to EPA prior to distribution of these materials. EPA will be offered at least seven days to review and EPA comments must be incorporated into the final materials.

Thanks,

Jeff

Good morning, dicamba registrants:

OPP would like to know how soon your companies plan to have a joint terms and conditions response prepared for Agency review. As you know, this is a priority action for Iowa and Minnesota.

Thank you,
Meg
